

YOUR SUPPORT AND ITS IMPACT

Nearly **1,000 donations** were made to APSA in FY2018, demonstrating a 30 percent growth compared to last year. These donations ensure that the study of political science will continue to flourish and grow, propelling education and careers.

Charitable giving enriches the profession that means so much to the international political science community and Association membership. Thank you to donors and partners for their crucial support in helping APSA advance activities beyond its operating budget revenue.

#GIVEAPSA: THE OPPORTUNITY TO GIVE BACK

In FY2018, APSA achieved its many program goals and maintained its strong financial health. This balance was made possible by several factors including a steady stream of external funding from charitable gifts and grants.

Collectively, from across the country and around the world, contributions were made towards key mission and functional areas like research and travel grants, awards, the Congressional Fellowship Program, the Centennial Center for Political Science and Public Affairs, the Ralph Bunche Summer Institute, and other initiatives promoting a vibrant future for the discipline.

Annual Giving and the Generation to Generation Campaign of the APSA Ralph J. Bunche Fund are strong pillars that support APSA's portfolio of resources for the political science community. Many donors to APSA are inspired to give back to the specific areas of the profession for which they are most passionate.

Through the generosity of APSA supporters, these initiatives are realized, made programmatically robust, and kept financially secure for present and future students and professionals.

WITH YOUR SUPPORT
