Arizona State University
Rank: Civic Education Assistant Professor
Specializations: American Politics, History & Politics, Leadership Studies

Civic Education Assistant Professor, Job #12777
School of Civic and Economic Thought and Leadership
Arizona State University

The School of Civic & Economic Thought and Leadership at Arizona State University (https://scetl.asu.edu/) invites applications for a full-time faculty position, Assistant Professor, in Civic Education, with an anticipated start date of August 2019. U.S. News and World Report has ranked Arizona State University as the most innovative university in the country for the past three years, ahead of Stanford and the Massachusetts Institute for Technology. Contributing to that no. 1 ranking with regard to “Innovation in Leadership” is the new School of Civic and Economic Thought and Leadership, which aims to create a new kind of leader, blending tradition and innovation, and exploring questions of freedom and governance.

The School is an interdisciplinary department that seeks, in its curriculum and public programs, to reconnect liberal education and civic education in the American university. It houses the Center for Political Thought and Leadership, whose primary focus areas are in civic education and American political thought as foundations for civic, political, and professional leadership. The successful candidate will play a leading role in developing the Center’s civic education initiatives at both the university and K-12 levels, and will pursue research and teaching for the School at the intersection of American political thought and civic education – thus serving the School’s broad mission and the dual focus of the Center. As with any Arizona State University professor, the successful candidate will be expected to develop or continue an excellent research and publication program; engage undergraduate and graduate students through effective teaching; participate in service to the university and profession; and build productive relationships with faculty both within and beyond the School of Civic & Economic Thought and Leadership.

Required qualifications include: a doctorate in political science, history, or closely related field; an established, successful, and ongoing...
research program in the area of American political thought; and an established record of successful university teaching experience. Desired qualifications include: expertise and interest in civic education at both the university and K-12 levels; interest in the study, teaching, and discussion of the great texts and debates of the Western tradition and liberal education, and in fundamental principles and debates of American political thought; demonstrated success meeting the needs of diverse student populations and/or reaching out to diverse communities; demonstrated potential or an established record of research and publication appropriate for tenure and promotion at a Carnegie R1 research university.

Application Deadline/Procedures: Initial deadline for review of complete applications is April 8th, 2019; if not filled, review of complete applications will continue on the 1st and 15th of each month thereafter until the search is closed. A background check is required prior to employment. Applicants must send: 1) a letter of interest outlining their qualifications; 2) curriculum vita; 3) reprints of representative publications; 4) contact information (including email addresses) for three references; 5) copy of graduate transcript; to: Civic Education Search Committee, School of Civic and Economic Thought and Leadership, at scetl@asu.edu. Stanford University

Rank: Postdoctoral Research Fellow

Subfield(s): Public Policy, International Relations, Political Theory

Fellowship Overview

For the 2019-2020 academic year, the Stanford Basic Income Lab is seeking to appoint a postdoctoral research fellow who will be responsible for carrying out extensive research on basic income experiments, studying ongoing pilot designs and reviewing the findings of cash-based programs throughout the world. This research will culminate in a comprehensive report - 'Universal Basic Income: Learning from the Global Evidence Base'.

About the Basic Income Lab

Founded in 2017, the Basic Income Lab (BIL) is an academic home for research on universal basic income (UBI). It regularly convenes scholars, policymakers and foundations around the politics and economics of UBI and informs city and state leaders of best practices in the space of UBI experimentation. An initiative of the Stanford McCoy Family Center for Ethics in Society, BIL is currently carrying out a comprehensive review of basic income literature and mapping it onto a user-friendly visual online platform. The Lab also recently launched a Toolkit with the National League of Cities entitled, “Basic Income in Cities: A Guide to City Experiments and Pilot Projects.”

Postdoctoral Fellowship Description

The Lab is interested in candidates who have research interests and experience in universal basic income or related cash transfer programs, poverty eradication, or social and economic inequality. Applicants must hold a PhD in economics, political science, public policy, psychology, sociology, or related fields. We have a strong preference for candidates trained in the social sciences with a background in empirical research methods.
As part of the Lab, the postdoctoral fellow will produce a comprehensive report, ‘Universal Basic Income: Learning from the Global Evidence Base’. The intention of the report is to address some of the following questions: Are unconditional cash transfers a promising route for building healthy communities? What are the potential limitations of universal basic income and what kind of problems is it unable to address? What other programs are necessary to achieve positive social outcomes? What further elements of UBI programs need to be tested to cover important knowledge gaps?

The fellow will review findings from previous experiments, explore designs from ongoing pilots and analyze the successes and failures of cash-based programs throughout the world. The fellow will also communicate with practitioners and experimenters to gather information on designs and findings and identify knowledge gaps. The report will be discussed and launched at an international event in 2020.

The postdoctoral fellow will also participate in the intellectual life of the Basic Income Lab, attending events and working alongside a team of graduate fellows, the Faculty Director and the Program Manager. While the postdoctoral fellow’s time will be mainly spent supporting the Lab’s research project (the review of the global evidence base, primarily, and also assisting with the more general literature review project of the Lab), the fellow will also have some time for personal research as it relates to universal basic income.

How to Apply
The appointment term is for one year, from September 1, 2019 to August 31, 2020. Applicants must have completed all requirements for their Ph.D. by June 30, 2019. Candidates must also be no more than three years from the awarding of their degree (i.e., September 2016).

Applicants should submit a cover letter, CV, a writing sample (no more than 25 pages double-spaced), and three letters of recommendation no later than March 1, 2019 at 11:59 EST.

Applications will be collected via Interfolio (https://apply.interfolio.com/59961). Applications will not be accepted by email.

If you have any questions, please email basicincomelab@stanford.edu.

Subfield(s): American Government and Politics, Public Policy, Other

The Department of Politics, Faculty of Liberal Arts & Professional Studies at York University invites applications from outstanding early career researchers who specialize in Politics of Democracy and Artificial Intelligence for appointment as professorial tenure-track or tenured professor at the Assistant or Associate Professor level. Note that this appointment is contingent upon a successful nomination to the Canada Research Chairs program (http://www.chairs-chaires.gc.ca/) at the Tier 2 level. The start date for this position is July 1, 2019 or as soon as possible thereafter.

The successful candidate must have a PhD in Political Science or a related discipline. The ideal candidate will be an emerging world-class researcher with demonstrated potential for international recognition in their field, and for taking a pioneering approach to the study of democracy and technology.

The development of Artificial Intelligence (AI) poses a host of challenges to social and political life, many of which will have an impact on the struggle towards democracy. The core focus of the proposed Chair is the relationship between AI and the democratic governance of states and societies. This relationship bears on, but is not limited to: 1) the political control of residents (populations) bearing on migration, privacy, political expression, and, given emerging trends toward transhumanism, who or what counts, in what ways, as a citizen or even human; 2) political and policy decisions about the organization of economies, the nature of work, consumption, and the environment; and 3) the very constitution of politics as it relates to the nature of states and the democratic body politic. The CRC in the Politics of Democracy and Artificial Intelligence will lead a research program into the democratic possibilities of AI, and the political demands for achieving greater democracy through the social disruptions and resources AI will produce.

The successful applicant will be eligible for prompt appointment to the Faculty of Graduate Studies. Preference will be given to those with experience supervising graduate students and postdoctoral fellows and/or the potential to attract, develop, and retain excellent students and future researchers, while contributing to curricular development in their area of specialization. Pedagogical innovation in high priority areas such as experiential education and technology enhanced learning is preferred.

The Canada Research Chairs (CRC) program seeks to attract outstanding researchers for careers at Canadian universities. Tier 2 Chairs are intended for exceptional emerging scholars (i.e., who, at the time of nomination, are within 10 years of attaining their highest degree, with consideration for career breaks) who have the acknowledged potential to lead their field of research. Appointment to a Tier 2 Chair is for five years, is renewable once, and comes with enhanced research support from the program. Applicants who are more than 10 years from their highest degree (and where career breaks exist, including maternity leave, extended sick leave, clinical training, etc.) may have their eligibility for a Tier 2 Canada Research Chair assessed through the program’s Tier 2 justification process. Please see the CRC website (http://www.chairs-chaires.gc.ca/) for further eligibility details.

For this nomination, we are particularly interested in candidates with diverse backgrounds and especially encourage candidates in equity, diversity and inclusion categories, including members of the four designated groups (women, members of visible minorities (racialized groups), Indigenous peoples and persons with disabilities) to apply. York acknowledges the potential impact that career interruptions (e.g. maternity leave, leave due to illness, etc.) can have on a candidate’s record of research achievement. Applicants are encouraged to explain in their application the impact that career interruptions may have had on their record of research achievement; this will be taken into careful consideration during the assessment process.

As a research Chair, a CRC is expected to develop research linkages within and beyond York. In the case of this Chair, productive research trajectories may include collaborations with scholars across the Faculty of Liberal Arts & Professional Studies, as well as a number of York’s Research Centres and Institutes (www.yorku.ca/research/about/centres.html).

The deadline for applications is March 31, 2019. Salary will be commensurate with qualifications and experience. All York University positions are subject to budgetary approval.

Applicants should submit a signed letter of application outlining their professional experience and research interests, an up-to-date curriculum vitae, a research and research leadership plan for the prospective Chair, a sample of their scholarly writing (maximum 50 pp.), and a teaching dossier, and arrange for three signed confidential letters of recommendation to be sent to: Professor David Mutimer, Chair, Department of Politics, Email: polysjobs@yorku.ca (Subject line: CRC in Democracy and Artificial Intelligence).

**Stanford University**

**Rank: Postdoctoral Research Fellow**

**Subfield(s):** Public Policy, International Relations, Political Theory

**Fellowship Overview**

For the 2019-2020 academic year, the Stanford Basic Income Lab is seeking to appoint a postdoctoral research fellow who will be responsible for carrying out extensive research on basic income experiments, studying ongoing pilot designs and reviewing the findings of cash-based programs throughout the world. This research will culminate in a comprehensive report - ‘Universal Basic Income: Learning from the Global Evidence Base’.

**About the Basic Income Lab**

Founded in 2017, the Basic Income Lab (BIL) is an academic home for research on universal basic income (UBI). It regularly convenes scholars, policymakers and foundations around the politics and economics of UBI and informs city and state leaders of best practices in the space of UBI experimentation. An initiative of the Stanford McCoy Family Center for Ethics in Society, BIL is currently carrying out a comprehensive review of basic income literature and mapping it onto a user-friendly visual online platform. The Lab also recently launched a Toolkit with the National League of Cities entitled, “Basic Income in Cities: A Guide to City Experiments and Pilot Projects.”

**Postdoctoral Fellowship Description**

The Lab is interested in candidates who have research interests and experience in universal basic income or related cash transfer programs, poverty eradication, or social and economic inequality. Applicants must hold a PhD in economics, political science, public policy, psychology, sociology, or related fields. We have a strong preference for candidates trained in the social sciences with a background in empirical research methods.

As part of the Lab, the postdoctoral fellow will produce a comprehensive report, ‘Universal Basic Income: Learning from the Global Evidence Base’. The intention of the report is to address some of the following questions: Are unconditional cash transfers a promising route for building healthy communities? What are the potential limitations of universal basic income and what kind of problems is it unable to address? What other programs are necessary to achieve positive social outcomes? What further elements of UBI programs need to be tested to cover important knowledge gaps?

The fellow will review findings from previous experiments, explore designs from ongoing pilots and analyze the successes and failures of cash-based programs throughout the world. The fellow will also communicate with practitioners and experimenters to gather information on designs and findings and identify knowledge gaps. The report will be discussed and launched at an international event in 2020.

The postdoctoral fellow will also participate in the intellectual life of the Basic Income Lab, attending events and working alongside a team of graduate fellows, the Faculty Director and the Program Manager. While the postdoctoral fellow’s time will be mainly spent supporting the Lab’s research project (the review of the global evidence base, primarily, and also assisting with the more general literature review project of the Lab), the fellow will also have some time for personal research as it relates to universal basic income.

**How to Apply**

The appointment term is for one year, from September 1, 2019 to August 31, 2020. Applicants must have completed all requirements.
Political Science Jobs

The New School
Rank: Assistant Professor of Politics

The Politics Department at The New School for Social Research and Eugene Lang College seeks to appoint a political theorist, for a tenure track position at the assistant professor level, subject to budgetary approval.

We seek candidates with a strong background in the history of political thought and with promise of excellence in research as well as teaching.

We seek candidates whose work is theoretically sophisticated, historically sensitive, and politically critical and who are committed to engaging with colleagues outside the theory subfield.
We aim to appoint someone with broad interests and a lively mind, who can contribute to cross-field discussions in a politics department committed to blurring subfield divisions; to interdisciplinary debate in a graduate division dedicated to critically-oriented social science, philosophy and history; and to collegial life in an innovative liberal arts college dedicated to seminar teaching.

While we expect a strong background in the history of political thought, we are especially interested in candidates whose primary focus is on theoretical approaches and questions linked to contemporary political problems—for example, race, indigeneity, colonialism, imperialism/capitalism, domination, intersectionality, borders, globalization, transnationalism, international law; and environmental issues.

The review of applications will begin on September 15, 2018 and will continue until the position is filled. The start date for the position is July 1, 2019. Applicants apply on-line using the faculty application on The New School human resources website http://careers.newschool.edu/postings/16212/. Using this online system, applicants should submit 1) a letter of intent, 2) a CV, 3) a list of references, and 4) a piece of recent research. Applicants should have the PhD completed by the time of their contract start date.

Stanford University

Rank: Postdoctoral Research Fellow
Subfield(s): Public Policy, International Relations, Political Theory

Fellowship Overview

For the 2019-2020 academic year, the Stanford Basic Income Lab is seeking to appoint a postdoctoral research fellow who will be responsible for carrying out extensive research on basic income experiments, studying ongoing pilot designs and reviewing the findings of cash-based programs throughout the world. This research will culminate in a comprehensive report - 'Universal Basic Income: Learning from the Global Evidence Base'.

About the Basic Income Lab

Founded in 2017, the Basic Income Lab (BIL) is an academic home for research on universal basic income (UBI). It regularly convenes scholars, policymakers and foundations around the politics and economics of UBI and informs city and state leaders of best practices in the space of UBI experimentation. An initiative of the Stanford McCoy Family Center for Ethics in Society, BIL is currently carrying out a comprehensive review of basic income literature and mapping it onto a user-friendly visual online platform. The Lab also recently launched a Toolkit with the National League of Cities entitled, "Basic Income in Cities: A Guide to City Experiments and Pilot Projects."

Postdoctoral Fellowship Description

The Lab is interested in candidates who have research interests and experience in universal basic income or related cash transfer programs, poverty eradication, or social and economic inequality. Applicants must hold a PhD in economics, political science, public policy, psychology, sociology, or related fields. We have a strong preference for candidates trained in the social sciences with a background in empirical research methods.

As part of the Lab, the postdoctoral fellow will produce a comprehensive report, ‘Universal Basic Income: Learning from the Global Evidence Base’. The intention of the report is to address some of the following questions: Are unconditional cash transfers a promising route for building healthy communities? What are the potential limitations of universal basic income and what kind of problems is it unable to address? What other programs are necessary to achieve positive social outcomes? What further elements of UBI programs need to be tested to cover important knowledge gaps?

The fellow will review findings from previous experiments, explore designs from ongoing pilots and analyze the successes and failures of cash-based programs throughout the world. The fellow will also communicate with practitioners and experimenters to gather information on designs and findings and identify knowledge gaps. The report will be discussed and launched at an international event in 2020.

The postdoctoral fellow will also participate in the intellectual life of the Basic Income Lab, attending events and working alongside a team of graduate fellows, the Faculty Director and the Program Manager. While the postdoctoral fellow’s time will be mainly spent supporting the Lab’s research project (the review of the global evidence base, primarily, and also assisting with the more general literature review project of the Lab), the fellow will also have some time for personal research as it relates to universal basic income.

How to Apply

The appointment term is for one year, from September 1, 2019 to August 31, 2020. Applicants must have completed all requirements for their Ph.D. by June 30, 2019. Candidates must also be no more than three years from the awarding of their degree (i.e., September 2016).

Applications should submit a cover letter, CV, a writing sample (no more than 25 pages double-spaced), and three letters of recommendation no later than March 1, 2019 at 11:59 EST.

Applications will be collected via Interfolio (https://apply.interfolio.com/59961). Applications will not be accepted by email. If you have any questions, please email basicincomelab@stanford.edu.
