

2026 APSA Annual Meeting

The 2026 Annual Meeting took place from September 3-6 in Boston, Massachusetts, USA. More than 6500 people attended this year's meeting. Presented below is a selection of data comparing the characteristics of attendees to the distribution within overall APSA membership. For any questions, please contact us at surveys@apsanet.org.

6,541

people attended the 2026 APSA Annual Meeting.

21%

of Annual Meeting attendees were internationally based, the same proportion as APSA membership overall.

85%

of survey respondents (n=952) reported being satisfied with their experience at the Annual Meeting.

92%

of Annual Meeting attendees were APSA members.

■ United States ■ International

Proportion of US-based and internationally based members present at the Annual Meeting (outer) and within total APSA membership (inner).

Figure 1: Comparison of Fields of Study Between Meeting Attendees and Overall Membership

■ Attendees ■ Membership

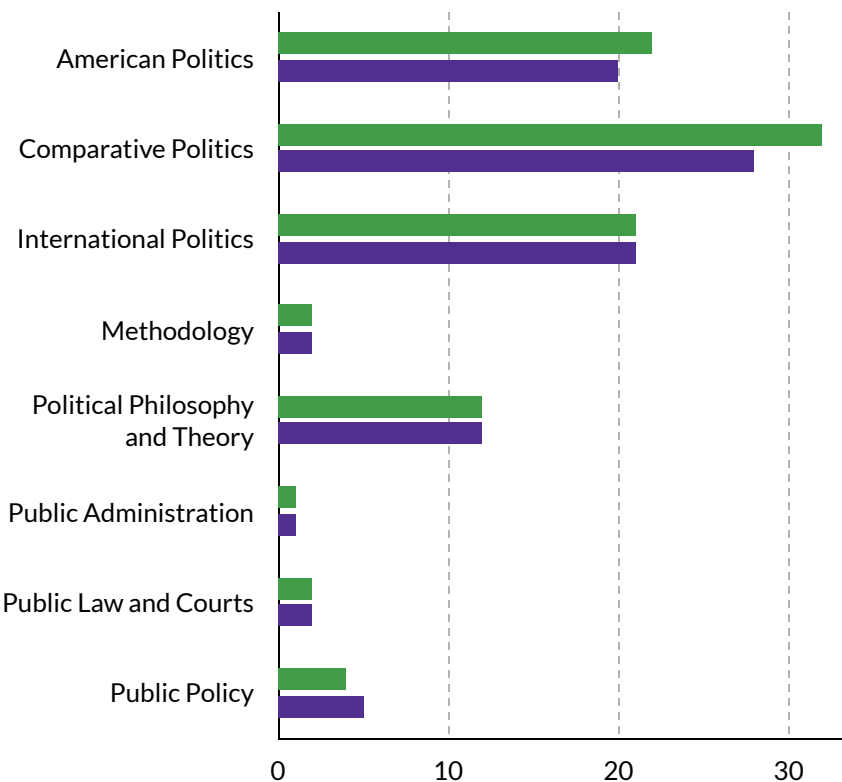

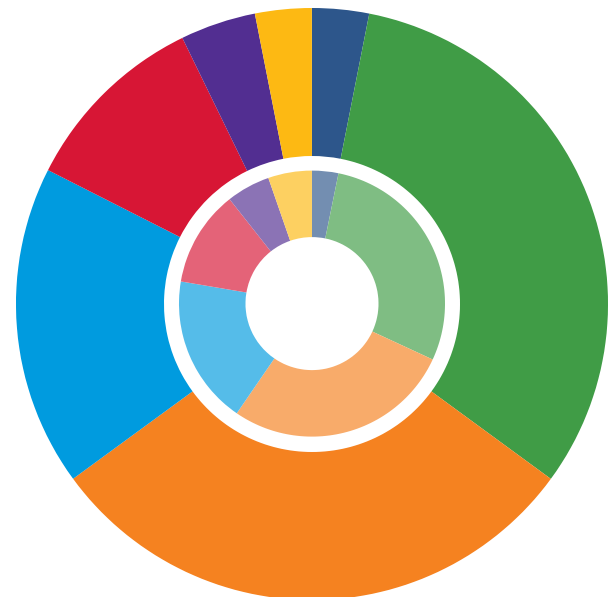

Figure 2: Age Distribution of Annual Meeting Attendees (outer) and Total APSA Membership (inner).

■ 24 years or younger ■ 25 to 34 years
 ■ 35 to 44 years ■ 45 to 54 years ■ 55 to 64 years
 ■ 65 to 74 years ■ 75 years and over

Members who declined to share their demographic information (international status, field of study, and age group) are not included in percentage calculations; percentages may not add to 100. Demographic information is unavailable for non-member Annual Meeting attendees (n=597) and is not included in percentage calculations above. Demographic information is sourced from the APSA Membership database; meeting satisfaction statistics are sourced from the 2026 APSA Annual Meeting Evaluation.

We Rely on You!

Our team relies on **your** participation to collect our data. We use your invaluable feedback to improve the resources we offer, develop our programs, and provide you with timely and accurate information on the profession. Please add surveys@apsanet.org to your email address book, and keep an eye out for our forthcoming Member Impact Survey. Five minutes of your time results in better data quality for everyone!
