APSA Membership Form

The American Political Science Association (APSA) serves as the leading organization of record for the discipline and represents the interests of all political scientists by providing opportunities for the larger community to engage, build connections, and advance the discipline through an unprecedented reach that serves over 11,000 members who represent over 100 countries. APSA plays a vital role in advocating for the discipline through our active voice in the community that spans from lobbying on behalf of the discipline with policy makers on Capitol Hill – to our relationships with other social science organizations, who support our activities to address funding priorities for research and independent peer review. APSA membership includes access to the disciplines four leading journals and over 15 organized section journals, the Cambridge digital archive, and access to the most comprehensive database of jobs related to political science, ejobs.
